Identification of prior art discussed:

Agreement with respect to the claims f) ☐ was reached. g) ☒ was not reached. h) N/A

Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Applicants have clearly explained their invention and argued that Shavit and Canna failed to teach or suggest a rate server and a client application registering at a supervisory server for enabling mutual communication between them. The Examiner stated that the proposed claimed language appears to distinguish over Shavit + Canna and that a further review of the combined teachings would be necessary before making a final decision. A further search would be made.
